Demo Script

Presenter: Good [morning/afternoon/evening], everyone. Today, I'm excited to walk you through a demonstration of our restaurant booking and review platform. Let's dive right in.

1. Creating Restaurants

First, let's create a few restaurants for our platform. [Demonstrate creating 3-4 restaurants]

2. Restaurants with Reviews

One of our restaurants has received a substantial number of reviews, making it an ideal candidate to showcase the power of customer feedback. [Navigate to the restaurant with many reviews]

Restaurant Side:

Login with Predefined Account (rfivers@gmail.com)

Let's start by logging in as the restaurant owner. Here, we have the option to:

Show bookings

View reviews

Display estimated waiting time

Toggle restaurant availability

Observe changes in restaurant ratings based on reviews

Patron Side: NewPatron

Now, let's switch to the perspective of a new patron joining our platform.

Register New Account

After registering, let's log in and update our profile, ensuring all our information is accurate.

Home Page

Here, we're presented with a user-friendly homepage featuring a search function and interactive map with restaurant pins.

Booking

Let's book a table at one of the restaurants. [Book a table for the next available time slot]

We can edit or cancel our booking as needed.

Completed Bookings

After completing our dining experience, we can provide feedback on the service.

Predefined Restaurant with Many Reviews

Let's search for a restaurant using our filter system to find the one with numerous reviews.

Restaurant Side: NewRest

Now, let's explore the restaurant management tools available to a new restaurant owner.

Login

After logging in, we can update our profile and make any necessary changes, such as our address.

Patron Side: NewPatron

Returning to the patron side, let's try to book a table at the newly added restaurant.

Restaurant Side: NewRest

Now that we've received some bookings, let's check them out.

Patron Side: NewPatron

Lastly, let's provide some reviews for the dining experience at NewRest.

Conclusion

And that concludes our demonstration! Our platform offers a seamless experience for both restaurant owners and patrons, with intuitive tools for managing bookings, reviews, and profiles. Thank you for your time, and please feel free to ask any questions.
